Administrative Reports – none

Chancellor Trocki called a special meeting to make a request to the Academic Senate Committee. He wants everyone to look at possibly restructuring. As Joe is retiring we should look at the reorganization of Vice Chancellor, Provost, and Deans on the academic aspect of things. Get ideas to him before the holidays, 1<sup>st</sup> of December. We will go over this the next Senate Meeting.

We moved to the next subject of scheduling. Greg motioned that the senate defines issues, define problems, the motion was 2<sup>nd</sup>. The committee listed some issues:

- There's no master schedule, conflict of classes
- Overlap of classes
- Some programs went to 4 day classes
- Schedule template (current) is not being followed
- 2hr lab TR
- Include general education, minor
- Students wait too long to take FR and SO classes
- Do we have credit creep
- No rationale for TR schedule
- BOR defines lecture, lab, and shop time

Tom called a question. Greg said let's see what all faculty what their issues are. Vote approved for items.

- Tom moves to broadcast Larry's template 1 schedule
- Darlene wants to add 4pm classes
- Greg motions to modify TR same as MWF for template 2

- Darlene amends to send out the original schedule template, template 1, and template 2. It's approved to send out all three for discussion.
- Bob had brought up using a master software scheduler. It's been told to us that the program is too expensive.

Greg moved to adjourn the meeting.
