Please provide a brief explanation & rationale for the proposed revision(s).

Update accounting minor to be more relevant for the needs of today's students to help meet demands of current employers within the field of accounting. The AICPA strongly supports the addition of data analysis courses in accounting curriculums as illustrated by the following excerpt:

"...the AICPA is working with colleges and universities to expand their accounting curricula to include technology-focused courses to meet the profession's current and future needs. And the AICPA is not the only voice of encouragement: Colleges and universities increasingly hear from accounting firms and business professionals about the urgent need for tech-savvier CPAs. Accounting departments are responding by integrating more technology and data analysis skills into their curricula and reclassifying their programs..." Deem, D. (2022.).
