THE VALUE OF YOUR AGRICULTURAL OPERATIONS TECHNOLOGY DEGREE

Northern's Agricultural Operations Technology degree is specially positioned to develop well-rounded agriculture professionals who can keep pace with the rapidly developing industry. The program encompasses plant and animal sciences; range, animal, and crop production; commodity marketing; and integrates modern technology (GPS and GIS).

Northern is located in the heart of Montana's ranching and farming communities, with easy access to many learning opportunities including the Montana Ag Research Center, a seed plant, and farm equipment dealers.

WANT TO GRADUATE ON TIME? SAVE MONEY? GET BETTER GRADES?

15

You're going to need 15. That's the number of credits you need to take each semester to graduate on time. Sure, you can take less and still receive some scholarships and funding. But unless you take 15 credits a semester (or 30 a year), you're looking at an extra year or more in order to graduate. Know the courses you need to graduate, and meet with your advisor to map out a plan to earn your degree on time.
