TOTAL CREDITS		14

THE VALUE OF YOUR WATER DISTRIBUTION CERTIFICATE

The Water Distribution certificate program at MSU-Northern is a one year program that prepares you for successful employment in various settings. Integrating practical experience with water distribution technology and theory, the program helps you build skills and knowledge to give you an edge with employers.

Prepare to enter a field that has a high demand for employees with the required certification to operate and maintain a water distribution system and with a strong education.

Pair the water distribution program with one of MSU-Northern's complementary programs in Agricultural Technology, Applied Science, Biology, Business Technology, Business Administration, Computer Information Systems, Civil Engineering Technology, Electrical Technology or Plumbing Technology and develop an even broader skill set.

15 TO FINISH

WANT TO GRADUATE ON TIME? SAVE MONEY? GET BETTER GRADES?

15

You're going to need 15. That's the number of credits you need to take each semester to graduate on time. Sure, you can take less and still receive some scholarships and funding. But unless you take 15 credits a semester (or 30 a year), you're looking at an extra year or more in order to graduate. Know the courses you need to graduate, and meet with your advisor to map out a plan to earn your degree on time.
