THE VALUE OF YOUR AUTOMOTIVE TECHNOLOGY FAST TRACK DEGREE

Hands-on learning is a prime focus at the 2nd ranked 4-year auto program in the country. The coursework includes all of the mechanic, fuel, and electronic systems of modern gas, diesel, and hybrid engines. The bachelor's degree opens the door for graduates who want to work as technical representatives, service managers, or specialized diagnosticians.

Students will become certified in the following:

- Preparation for Ford's Maintenance and Light Repair Program (MLR)

- National Coalition of Certification Centers (NC3)

- Automotive Service Excellence Education Program (2 year AAS only)

WANT TO GRADUATE ON TIME? SAVE MONEY? GET BETTER GRADES?

15

You're going to need 15. That's the number of credits you need to take each semester to graduate on time. Sure, you can take less and still receive some scholarships and funding. But unless you take 15 credits a semester (or 30 a year), you're looking at an extra year or more in order to graduate. Know the courses you need to graduate, and meet with your advisor to map out a plan to earn your degree on time.
